CAN WOMEN EVER BE EQUAL TO MEN?

In ancient times, people thought that it's impossible for women be equal to men because many girls had no freedom of speech and they couldn't go to school, they faced many challenges due to bad government and ignorance of their parents. As a result, they got law self-esteem in their experience, they lacked basic education as the boys. ***I*** *know this had some consequences for them. So you can ask yourself why only them?*

Women or girls had to look after their little brothers and sisters, do domestic works and so on…, while boys were being educated at school and their fathers were working for their families but today, there are great changes in education of the girls, the government has tried to improve girls in their life in many ways and even the schools try to support them. Here at ASYV,they have also tried to promote gender balance through giving equal chances to both girls and boys in different activities. Today the Rwandan government has established different facilities to the girls for instance reduction of their degree in national examination, because they want to put them at the same level as that of boys and also in ASYV takes 8 families that come in the village every year 5 of them are girls, just to give girls the opportunities to access the basic education as the boys.

It is obvious that today there are great changes in their improvement. Now all girls have freedom of speech wherever, they can go around the world and they have self confidence as well as higher self esteem. Let's help them! To become the best mothers of the future.

THEY REPRESENTED US WELL IN THE COMPETITION

On 5th/October/2012 a number of students left the village and went to Butare where they spent two nights in Groupe Scolaire Officiel de Butare

On 6th , poets and singers competed at Imberabyombi hall where everything was supposed to take place, among four province and Kigali city there were 12 persons to perform in all career , we went back curiously because they hadn't announced the result.

7th the big day to Amahoro Group and Itorero Isheja . performed at the 10th place in 12 troupes from different

province and Kigali city, after all performance they waited for 30 minutes for the jury to make decision , itorero isheja been appreciated as the best new comers and that their stage were the best decorated and well designed related to the theme given. All that made them to take third place in the whole country, Indatwa n'inkesha being the second and big congratulation to Immaculee de conception de Save who won the trophy of this year and Lycee Notre dame were the 4th, St Alloys the fifth. Finally our biggest pleasure and honor to Amahoro Group who won the first place in singing and good text writing with in a theme of fighting against drugs and all other alcoholic drinks in schools. We appreciate their effort in making ASYV proud.

RAFIKI HAS GOT AN ACCIDENT

This last Sunday during the night a bad story have spread saying that one of the famous singers in the country known as a king of coga style Rafiki Mazimpaka have got an accident.

It was in the concert that was taking place in Academy Secondary School where he was with other artist like Bac-T, Clovis, Spax, and Staff Sergeant Robert. While he was on the stage performing he got a scratch on his head due to the ventilator. Basing on what Kalisa John who was with at the hospital told inyarwanda.com, Rafiki was taken to the hospital immediately and the doctors where taking care of them .

We hope that he will be alright and may God be with him.

SHE IS NO LONGER MISS CHANEL

A Rwandan artist who was called Miss Chanel has changed her name, and from this time her singing name is Nirere Chanel.

In interview with inyarwanda.com, Nirere Chanel have said that there is no special reason behind changing her name but the fact that Nirere Chanel sounds better have caused her to remove the word Miss on her name. When she was asked on her future plan she have answered that she releasing two songs in this coming days and that she is working hard to get her second album launched by the end of this year.

We remind you that this name Nirere was not chosen by accident because it is one of her real names (Nirere Ruth). ***By N. Maurice***

SENDERI INTERNATIONAL HIT HAS NEW STYLE

Senderi international hit is one the Rwandan artist loved by many people in the country due to his songs full of messages.

Senderi has released many songs that made him a star in the whole country, for instance Sophia,sukura umujyi and other afro beat songs that were liked by many people is now switching to Hip Hop style . He has told one of the websites that he is switching to hip hop because he is very passionate as well as able to do so

His first song in hip hop will be released soon called ***Mu Kibuga.***
Let's wait and see. ` ***By Ntagungira Maurice***

BETTER WAY TO LIVE YOUR LIFE ?

I'm one of many girls .I like our life and i like to know who we are. What do you do if you want development for all girls? Want to tell teenagers that they must be careful in their lives.

In our country we know every girl have a purpose but all of them don't practice them. Why? this is their way of life try your best ,because in this time many girls don't use their time very well; sometime you can see obstacles that cause this problems for failing when you are students and same time you can came to pregnant. the development can give you a good life in your future if you are a good girl .I want to say that you have to be careful in your life because there are many problems for us .we must know that if a girl is pregnant, first all she give up and also she can lose her life.

How can you prevent pregnancy? you must know that your life is in your hands and also to know who you are after of all you can avoid having sex intercourse because there are many diseases that from having sexual intercourse, those diseases can be aids and so on.

You can prevent those problems when you like your life, by using abstinence, if it is difficult for you can use a condom but it is not good for a girl because me I like to obtain .her profit can a good because you can study very well. To have a purpose in your life and confidence, to live with each other very well

After of all I want to tell same one who has problem such as, pregnancy and living with diseases are difficult for her \him that she should never give up because there is another life.

Heroes' action in ASYV

Few days ago Rwanda government headed by his excellence Paul Kagame introduced a new campaign called Agaciro development fund with an aim of increasing the country's economy so to provide itself annual budget without relying on foreign donations.
All Rwandan population are proudly volunteered and committed to contribute and without any force. Agahozo Shalom Youth Village also as a huge community including students and educators (staffs), in general is engaged – to contribute too.
Only students raised money amounting to one million and a half (1,500,000rwf) while staffs contributed seven million (7,000,000Rwf)
By stopping to eat some foods like: meat, eggs, salads and so on.
According to the news we got from Ruhumuriza Vincent de Paul, a student who went with administration representatives in conversation between the school administrative with Govern of eastern province, for the school administrative were going to hand off the cheque to the Governor, Ruhumuriza said that Governor appreciated how they are patriots and that this shows that our country has even a brighter future with a generation of new fresh ideas.
She recommended the all members to keep that up and that she especially appreciated the ASYV kid's involvement. From that we can say that keep it up and never give up perceiving our dignity.

OFFICIAL END OF AKANOZE

AKAZI KANOZE is about knowing how you can make your job better or very clear, where You get strategies which you can use on your job, how you can create your own job and so on…

Because of those benefits which are included in AKAZI KANOZE, the village have taken some Weeks and provide AKAZI KANOZE skills to the students and at the end of 2nd term all senior5 students were in training of Akazi kanoze. They learnt how they can make their own business (job), and how they can manage their businesses. This training of Akazi kanoze was in several places in the country. And some of the students who got higher marks than others on 2nd October2012 went to meet with first lady Madam Jeanette KAGAME who gave them, their certificate. There were a lot of students from different places. But one wonders is that, only Liquid net Family High School is only the secondary school which taught Akazi kanoze to the students in the whole country! Others were people who finished to study or who study in university somewhere.

In addition the first student who got high marks in the whole country she's from Liquid net Family High School. And she's called Jeannine. In her short interview with much happiness she said <<It's a pleasure to be the first in that training of Akazikanoze that means that i did what I was supposed to do and I had Gotten something from that training.

But as an advise to other kids who will learn Akazikanoze next years here, Is to use those chances very well. Because we are the only students from secondary school who learn Akazikanoze. which means it is not easy to teach Akazikanoze .another is when you learn it well, you will never fail to do your job and you'll try to make

your own business.

At the end of Jeannine's interview she didn't forget to thank the village leaders how they help us in many Things as well as how they really help us in Akazi kanoze, even if it is very expensive.>> The village leaders, Put more effort in Akazi kanoze because of some benefits and for those who don't know some benefits of learning Akazi kanoze, Are so many profits, but some of them are: To know how you can make your own business, to know how you can behave in your job, how you can make it better, how you can get the capital (money) that you can use to create yourown business

READING WEEK IN VILLAGE

From Monday to Friday, last week in village there was a special week which named "Reading Week" The week was prepared and run by The Language and Development Club where they set out Spelling Bee Competition that started from families from INGENZI grade to SEEDS grade.

We interviewed the president of the club, NKUNDIYE INNOCENT, He said that " they used this competition as a strategy to promote English language in the village. He also added that this was the starting point. In addition, he said that, as club they will continue to use different ways in order to promote languages in the village.

On this Friday 5th 10.2012,its end took place around 18h00 pm to 20h00 pm, where there was final round of competition, each grade were represented by two person. At the end of competition, NGABITSINZE ISSA, came up with the victory followed by UWASE BORA and KANANURA BRIGITTE. Moreover, At the end, our director, NKURIKIYIMFURA JEAN CLAUDE known as JC, in closing speech, He congratulated all participants, who were there that " He and the whole village will continue to support reading and writing culture as well in village".

"LOVE KEEPS NO RECORD OF WRONGS"

Once upon time there were two best friends who were traveling across the desert, as they were moving both of them were smiling and sharing jokes.

At one poin6t they fought and one of them slapped the other, the latter, sore and without saying anything wrote in the sand "Today my best friend slapped me"

They continued walking and found an oasis there they decided to swim but one who had been slapped failed and drown then his friend saved him, when he was taken up from water he wrote on a stone "Today my best friend saved my life"

The one who saved his friend from water asked him, when I hurt you, you wrote in the sand and now I saved you, you wrote on stone why?

The other friend replied" when a friend hurts us, we should write in sand where wind of forgiveness can erase it but when a friend does something good for us we must engrave it in stone where no wind can erase it even our love should keeps no record of wrongs"

Do you still remember all your hurts?

Learn to write your hurts in the sand and to carve your joys on stone

ENVIRONMENT IN THE VILLAGE

The environment in A.S.Y.V is one of the things that they They used to look after. Where they put the strategies of protecting it, one of those ways is the project called ''NATURE BUILDING PROJECT ''

The project of nature building project is taking place in agahozo shalom youth village park, where they study how to build hut,
also how to fix thatch by using the grasses. That project was planned by Nathan and Melissa (Volunteers). that project is taking four weeks order to conclude it.

So, for the ones who are thinking that the bushes of agahozo shalom youth village are naked this is your solution, let us fight for it , against the arsonist. don't remiss it, instead the harvest you will see after taking care of it,is wealth since the environment is money. Our only port is to be attentive on that project or that program.

On the other hand we anticipate that you will be
Attentive to that project as doors are wide for everyone who needs to help as we seem, the true testimonies are the harvest that they reached so far. Don't delay, be attentive.

THE WORLD IS IN OUR HANDS

Liquidnet family high school as the school helps its students to be the most wanted person in future just to restore the rhythm of their life and to teach them to see far and to go there as the motto says "if you see far you will go far"

To misuse our time in doing nothing is just to demolish our future ;let's now take these opportunities at these moments because chance comes once and goes once. Now at these times many old men are committed to going to school while they are aged 50 years . We as young generation we have to ask our selves "why are they committed with that?"and that lead us to find an answer

It's because they have seen the importance of studying .So let's now make use of these times we are having chance to study and develop it into amazing people in future while we are capturing world in our hands

Time is among the most determiners of our future if we are using it badly it means we are demolishing our future as to reject the world that is in our hands .Why can't we use time properly since it is among the thing help us to have a bright future?

We as young focused generation we have to study in these time because the best or worst we are doing now will affect us in future

<education is the key to success>

OUR PAST SHAPES OUR FUTURE.

Today there is a remarkable rapid change in different domains. Human beings are making progress in many aspects like communication, technology, medicine,

education ,politics, and others are improving day by day.

A question one may ask is to know the origin about this . the past may help us to know about every thing in our life . there is no doubt that if we know the past , we will understand the present and the future . and also if we know our past we will correct or prevent the mistakes of the past in order to have the better life to day and also if we had good history of the past we will improve I t more than it was . by this we will be preparing our future well

The connection between the past ,present and the future is like a chain and once one is broken , it can affect the rest . that means if you had bad history from the past , and you always believe that you will never have better future , you are blocking one of the chains which is the future and that must cause you a big trouble of remaining in bad history and also if you had a good past and you think that nothing will never change your future without working for it also you are breaking down your future because you can not have a good future without working for it.

George Orwell said that '' who controls the past controls the future''. And Santayana added that ''those who can't remember the past are condemned to repeat it ''. A nation which doesn't know what it was yesterday , doesn't know what it is today , or what's trying to do (Woodrow Wilson). It is with hope that by thinking on these above quotations, there is hope rising in you. Today, we all have to learn from the past if we want a brighter future. And also if we had a bad past we have to change it for a better future by avoiding returning in our bad history. And if we had good past, we have also to keep it up or to improve it in order to avoid destroying our future.

Don't forget that '' one bird in hand is worth two in the bush'' that means, we have to improve what we have now by planning for the future. So let's learn from our past, face for the present and it will help us to prepare our brighter future.
